

WORKPLACE FIRE SAFETY

Eliminate Hazards

1. Keep paper away from heat sources
2. Don't overload outlets
3. Unplug items when not in use

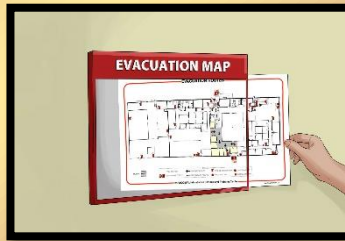

4. Don't cover cords or wires with rugs or chair mats
5. Limit smoking to designated areas

Educate Employees

1. Post evacuation plans around the office
2. Review evacuation procedures regularly

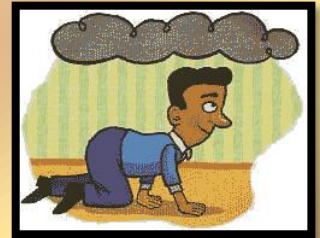

3. Hold regular fire drills
4. Use fire extinguishers only if properly trained

Evacuate Safely

1. Never use elevators in a fire emergency
2. Crawl low under smoke

3. Before exiting, check doors for heat with the back of your hand
4. Use something bright to signal firefighters if trapped
5. Evacuate directly to the designated safe meeting place
6. Never go back inside a burning building
