

Safe Handling of Chemicals

Do:

- Store chemicals safely
- Keep clean, cool and dry
- Keep chemicals in their original containers
- Use secure storage to prevent access by vulnerable people

Good hand-washing practices can help keep you safe

Make sure your workplace is well ventilated

Use PPE as needed

Don't:

- Mix chemical products
- Use chemicals if you are not trained to use them safely
- Leave chemical products unattended

Have a response strategy if you spill chemicals on yourself or others

Read the label and follow instructions

Report damaged or split containers. Clean up spills

Remember:

Chemicals can cause:

- Harm
- Skin allergies and asthma
- Skin burns and eye damage

Don't store chemicals in bottles designed for other uses

Don't store chemicals in unmarked containers

Don't place heavy chemical containers on high shelves

Tip: try to use less harmful practices and chemicals, rather than just relying on PPE!
